Why Summer Fellows?

"With its emphasis on the importance of Public Service, Dwight Hall gives the chance for Yale Undergraduates to develop interests and professional skills in the non-profit sector. This summer taught me to appreciate those skills: from communication and outreach to accounting and communications."
Summer Fellow Marwan Safar Jalani ’20

“More importantly, this Dwight Hall Fellowship has enabled me to narrow in on something about which I am passionate. It has enabled me to ground these lofty thoughts in the reality of public service. In other words, this past summer I have been able to contemplate things from a distance—without the stress of school work or grades—but also contemplate things right up close.”
Summer Fellow Amanda Harrison ’19

2018 Summer Fellow Abigail Clayton ’19

DWIGHT HALL
SUMMER FELLOWS

Celebrating 50 Years!
Since 1968, the Dwight Hall Summer Fellowship has offered the unique opportunity for students to dedicate themselves to creating real social change. Specifically designed for those engaged students who need the time and resources to enact a socially responsible idea, students are employed full-time for eight weeks and asked to execute a project that attempts to fill a social need.

Dwight Hall at Yale is not prescriptive in issues or process, but to earn Dwight Hall funding, students must show that their projects are sponsored by a community expert, have demonstrable results, and contribute to the betterment of the student and their community before granted fellowship.

Summer Fellows also engage in a series of community-building and boundary expanding activities with their peers. Weekly meetings revolve around food, conversation and reflection.
